"I chose the International Fast track programme as it enables you to obtain a Bachelor degree in Hospitality Management in 2,5 years and offers the opportunity to study at one of the best hospitality universities worldwide!"

What I really like about the programme is that it does not only revolve around teaching knowledge but also on emotional intelligence with a strong focus on personal growth and development which shapes your basis as a future hospitality leader.

Part of this unique programme is the Summer Preparation Course, which is surely challenging, but the strong bond that you create with your fellow students, and your personal and professional growth in such a short amount of time makes the Summer Preparation Course and the Fast track programme as valuable as it is. As I have experienced so far, studying at HTH truly means studying at the heart of hospitality!"
